

HOSPITALITY HUB

ST GEORGE'S CHURCH
LOVING GOD LOVING OTHERS

In order to improve our Community Impact, and with reference to the needs assessment we have carried out, we will equip and re-open the coffee shop. This will run three mornings a week with two days running into afternoon sessions for Toddlers and Seniors respectively. A Hospitality Manager and possibly a Deputy will be hired to provide the core team. They will be responsible for delivery of the plan, stock ordering, coordinating volunteers etc. Volunteer church members will then help with serving, clearing etc. But, with the core functions taken care of by the paid team members, volunteers are then free to engage in relationship building and informal evangelism.

To enable this outworking of Vision 22 the church will carry out works to add a **new reception area** and **toilets** to the main building. We will improve the **facilities in the cafe space** and install a glazed foyer rear **entrance** from the car park for additional access.

The glass fronted **church reception area** will be easily accessible from the road and will have a manned reception desk where a part time **receptionist** will be based to meet and greet visitors offering a warm welcome and directing them to the activities and projects that best suit their needs.

The hospitality hub may also be used for evening outreach social events such as the old "Blue Moon" cafe, breakfasts and a host of other mission shaped activities.
